Creating Vibrant Social Spaces – New Avenues to Urban Renewal

The Faculty of Fine and Applied Arts at Chulalongkorn University, Bangkok invites contributions of papers, visual presentations, and workshops for its international forum. Authors that are not able to attend the forum may submit papers to the **Journal of Urban Culture Research** - see website listed above.

Both the forum and journal aims to encourage researchers, artists, and those involved in urban planning to seek cross-disciplinary and cross-cultural practices aimed at fostering the sustainable development of vibrant, livable cities and promoting cultural continuity. Presentations spanning the wide and diverse field of urban culture are welcome. The below is offered as evocative guidelines rather than requirements.

Creating Vibrant Social Spaces – New Avenues to Urban Renewal

- Creative Designs for Urban Spaces
- Supporting Social Inclusion and Participatory Citizenship
- Learning & Preserving Traditions in Today's Society
- The Role of Academia: From Research to Community Outreach
- The University as an Educational Hub
